OBJECTIVE

I am looking for an internship where I can gain experience with the things I have learned from college and trainings in an actual work environment and gain even more knowledge from the company's staff. I offer my service and determination to be an asset to your company for as long as I am part of the company.

EDUCATION

Riinvest College

Computer science

2019 - Ongoing

During my time at Riinvest, I gained a deep understanding of computer science concepts and developed practical skills in programming, software development, and database management.

PROJECTS
